

## Privacy Policy for Electronic Transactions

**Confidentiality and Security Safeguards.** Wichita Federal Credit Union maintains strict policies and security controls to assure that nonpublic personal information in the Credit Union's computer systems and files are protected.

**Privacy of Electronic Transactions.** In general, you can access your account online without disclosing to us who you are. If you send us an e-mail, WFCU will collect and store the identifying information in order to process your e-mail request. This information is not sold to third parties. All web servers record information about each page request. These server log files contain no personally identifiable information other than the IP address of the machine used to access the site. We may retain and aggregate this information and analyze it to better understand the nature of our site's use and improve the usability of the site. The credit union may use "cookies" as part of its web site interface. While a "cookie" contains no member information, it identifies the member's computer and allows the credit union to measure the website's usage and customize the website experience. Electronic interfaces with members (such as Internet transactions) will be encrypted using Secure Socket Layer (SSL) 128-bit encryption.

Member account information and transactions will be protected by a password that must be used in conjunction with a username or account number. Members must apply for this capability and be registered with the credit union for authentication purposes. If you visit a secure site such as WFCU Online, you will be asked for personal identification numbers that will give you access to your account information. This information enables WFCU to regulate entry to specific account information. Any identifying information gathered is not sold to third parties.

From our website, members may access a variety of sites maintained by third parties. These sites are managed by organizations that may or may not have a business relationship with the credit union. The content presented at these sites and information collected at these sites is not controlled by Wichita Federal credit union. Members should refer to each site's privacy statement for additional information about how that particular organization manages information.

The credit union will not collect, use or disclose online information received from children under age 13 without prior parental notification and consent, which will include an opportunity for the parent to prevent the use of data and participation in the activity. Online information will only be used to respond directly to the child's request and will not be used for other purposes without prior parental consent.
